

Nitrile Examination Gloves

Description:

Nitrile Examination Gloves are suitable in work environments where there is possible contact with bodily fluids, microorganisms, and chemicals. They do not contain natural rubber latex and are an excellent alternative for those suffering from Type I allergies. The powder-free gloves offer high flexibility, tactility, tear and chemical resistance.

Size:

Size	Minimum length (mm)	Palm Width (mm)	Weight (g)	Palm thickness (mm)	Finger thickness (mm)	Cuff thickness (mm)
S	240	80±10	3.5±0.3	0.07±0.02	0.10±0.02	≥0.04
M	240	95±10	4.0±0.3	0.07±0.02	0.10±0.02	≥0.04
L	240	110±10	4.5±0.3	0.07±0.02	0.10±0.02	≥0.04
XL	240	≥110	5.3±0.5	0.07±0.02	0.10±0.02	≥0.04

List of main raw materials:

Nitrile Butadiene Rubber ≥95%

Titanium dioxide

Vulcanizing agent

Zinc oxide

Surfactant

Calcium stearate

Notes:

1. Examination Gloves are single use products and should be used for one procedure and patient only.
2. When wearing gloves, do not wear rings or other ornaments, and trim nails smoothly.
3. Wear regardless of left and right hands, please choose gloves suitable for your hands specifications.
4. Do not use if the gloves are contaminated due to packaging damage.
5. It is strictly prohibited to directly irradiate strong light such as sunlight or ultraviolet rays.

Storage:

The products should be stored in a cool, dry, dark environment without corrosive gases.
